

**MAPETROL DIESEL ADDITIVE****Description:**

Mapetrol Diesel Additive serves as a versatile diesel additive, purifying the entire fuel system, boosting the cetane number and restoring power and performance. Contains a lubricity additive provide lubrication to the diesel fuel pump when using low-sulfur fuel.

**Benefits:**

- Purges the complete fuel system, encompassing injectors
- Reinstates power and operational efficiency
- Enhances combustion and curtails fuel consumption
- Elevates the cetane number
- Safeguards the fuel system from corrosion
- Provides lubrication to the diesel fuel pump
- Lessens the discharge of harmful exhaust emissions

**Usage:**

Applicable to all diesel engines, including those equipped with common rail technology, whether turbocharged or not. Designed for operation with both low and standard levels of sulfur in diesel fuels.

**Instructions:**

- Before adding diesel empty the required contents of a bottle into the fuel tank
- Each bottle is suitable for treating a fuel quantity ranging from 40 to 60 liters of diesel
- It is suggested to employ one bottle after every 2000 km traveled
- For sportive use it is suggested to employ one bottle for each tank filling

**Technical specification:**

Colour	CLEAR
Smell	CHARACTERISTIC
Flash point [°C]	> 61
Density [g/cm <sup>3</sup> ]	0.806
