Exciting News: Mapetrol® Teams Up with Sparco®!

Hold on to your helmets, racing fans! We are ecstatic to announce that Mapetrol® has joined forces with the legendary Sparco® in a thrilling co-branding partnership. Get ready for some amazing new product lines – more details coming your way soon!

Mapetrol®, the maestros of lubricants, have been perfecting their craft since 1922. With our WS2-enriched oils, approved by CIK-FIA, we've been making waves in the racing world, proving our mettle on the track. Sparco®, founded in 1977, is a powerhouse in the racing segment, known far and wide for their top-tier products. Their name is synonymous with high performance and impeccable safety standards in motorsport.

Both Mapetrol® and Sparco® are proud European brands with a rich history of quality and innovation. This collaboration promises to bring the best of both worlds to our fans and customers.

Stay tuned for more updates on our journey to revolutionize the motorsport industry!

Mapetrol® and Sparco®: A Partnership of Excellence

Mapetrol® and Sparco® have joined forces in a strategic co-branding partnership that brings together two of the most respected names in the motorsport industry. With a shared commitment to quality, innovation, and performance, this collaboration is set to elevate the standards in racing products.

Mapetrol®, with nearly a century of expertise in lubricants, is known for its high-performance oils, enriched with WS2 and approved by CIK-FIA. These products have made a significant impact in the racing world, consistently delivering top-tier performance on the track.

Sparco®, established in 1977, is a leader in motorsport equipment, celebrated for its premium products and unwavering dedication to safety. Their name is a benchmark for high performance and rigorous safety standards, making them a natural partner for Mapetrol®.

Together, these two European powerhouses are combining their strengths to introduce innovative product lines that promise to meet the demanding needs of motorsport enthusiasts and professionals alike. This partnership represents a union of expertise and a shared vision for the future of motorsport.

Sparco® history Mapetrol®

Sparco® was founded in 1977 by three young rally drivers in Turin with a vision to improve safety and style in motorsport. The company quickly gained recognition with its first fireproof driver suit in 1978 and a racing seat in 1979. By 1983, Sparco® reached a significant milestone when Nelson Piquet won the Formula 1 championship wearing a Sparco suit.

1977

1922

The beginnings of the company can be traced back to 1922. At that time the company produced petroleum, Vaseline and petroleum-based resins.

1996

In 1996, Sparco® expanded into the United States by establishing SPARCO® Motor Sport Inc. in California, strategically positioning itself in the competitive American racing market. The brand's global expansion continued with the opening of its first factory in Tunisia in 1997, followed by diversification into the carbon fiber automotive components sector in the early 2000s.

In 1985 used oil regeneration was discontinued, with only the more ecologically acceptable production processes remaining.

1985

Under new leadership in 2009, Sparco® renewed its commitment to innovation, particularly in safety gear. The introduction of Hocotex™ lattice technology in 2013 revolutionized fireproof suit manufacturing. In 2014, Sparco® launched the 'Infinity' suit, offering unparalleled customization with over 64,000 color combinations. By 2016, Sparco® had developed the 'Prime' suit, the lightest ever produced at just 600 grams.

2009

1991

In 1991 the production reached a record of 12 kt of produced oil, with 50 employees on premises.

2018

Sparco® expanded its product offerings beyond motorsport, introducing the "Sparco Teamwork" line of safety shoes and workwear in 2018. The company also ventured into the gaming industry with Sparco Gaming, providing high-quality equipment for E-sports and SIM Racing enthusiasts. In 2019, Sparco® introduced the QRT technology for racing seats, a state-of-the-art process that set new standards for lightweight and strong fiberglass seat shells.

After five decades the company became part of Petrol Ljubljana, which was then the fastest rising company in the oil industry.

1972

Sparco® demonstrated its commitment to environmental sustainability by launching the "Full Efficiency" product line, which emphasizes zero waste production and the use of regenerated materials. In 2022, Sparco® became the first manufacturer to pass the tests for the new FIA 8855-2021 standard, setting the stage for future developments in racing seat safety and design.

2020

1990

Five years later a complete renovation of all blending facilities, packaging line and storage places took place.

2023

In 2023, Sparco® continued to solidify its leadership in motorsport by partnering with the Red Bull Racing team and world champion Max Verstappen. This partnership underscored Sparco®'s dominance not only in fire retardant clothing but also in car equipment, with innovations such as the "Formula H 10" belt, the lightest in the world at less than 500 grams. Sparco® also received the highest possible score in the Italian Competition Authority's legality rating, further cementing its reputation for excellence and integrity in the industry.

In 2008 the MAPETROL® laboratory was built, which still provides the highest possible oil quality, meeting all of the highest world oil standards. The laboratory performs various in-depth raw material analysis, R&D of new products and offers lab services to external partners.

2008

2024 Strategic partnership

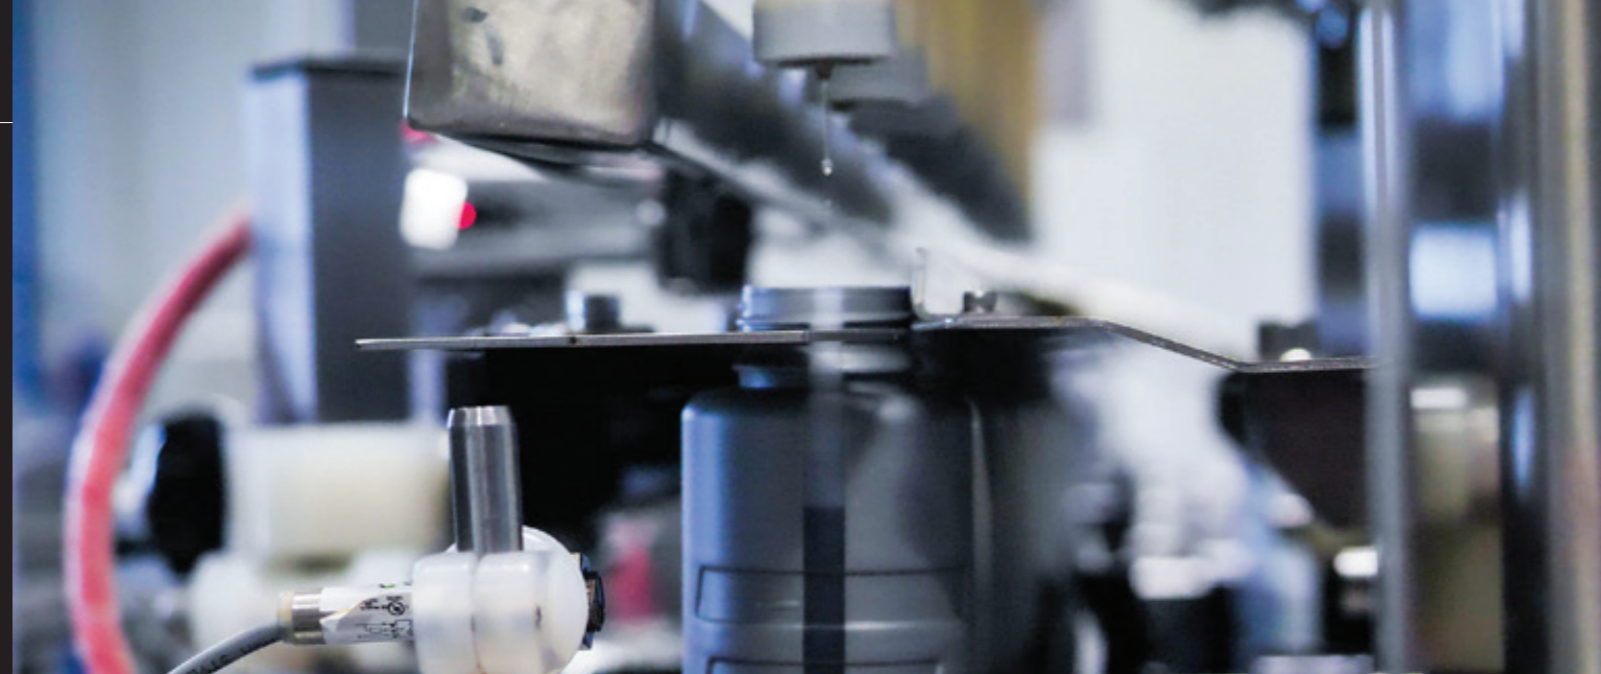

In 2024, we at Mapetrol® forged an exciting partnership with Sparco®, a globally recognized leader in motorsport safety and performance. Together, we introduced the "Mapetrol Sparco" line of motor oils, a collaboration that merges our advanced lubrication technology with Sparco®'s extensive expertise in the racing world.

Our lab

We have our own laboratory, with the latest technologies in the field of motor oils and lubricants. Part of our laboratory is also a test chamber where with the use of specific tests we compare and analyse oils in different conditions, using several engines.

Based on our experience and knowledge acquired through years of collecting data from our laboratory tests in the field of lubricant oils, we developed WTR and IPS technologies which give us the possibility to produce oils which are custom-made to your specific performance needs and adaptable to your climate.

Sparco® Lubricants by Mapetrol®

Sparco Lubricants by Mapetrol®

At Mapetrol, we are honored to collaborate with Sparco®, a brand renowned for its excellence in the world of motorsport, to create Sparco Lubricants. This partnership allows us to bring the same level of dedication, precision, and quality that Sparco® is known for into every bottle of motor oil we produce. The Sparco Lubricants range, crafted by Mapetrol®, represents the pinnacle of performance and protection, designed to meet the exacting standards of motorsport professionals and enthusiasts alike.

Innovation Driven by Experience

Sparco®'s legacy of innovation is unmatched in the motorsport world, and at Mapetrol®, we are proud to extend that legacy through our Sparco Lubricants range. Each oil is the result of extensive research, development, and testing, ensuring that we stay at the forefront of technological advancements in engine performance. By continually refining our formulations, we ensure that Sparco Lubricants offer superior lubrication and protection, allowing drivers to push their engines to the limit with confidence.

Uncompromising Performance

In motorsport, performance is everything. That's why Sparco Lubricants, produced by Mapetrol®, are engineered to deliver superior results in the most demanding conditions. Our oils are formulated with advanced additives and cutting-edge technology to reduce friction, improve efficiency, and protect your engine under the toughest conditions. Just as Sparco®'s gear is trusted by top drivers for its reliability and performance, our lubricants are designed to ensure your engine performs at its peak, race after race.

Designed for Champions

Sparco® is a name synonymous with champions, and Sparco Lubricants by Mapetrol® are crafted to meet the same high standards. Trusted by professional drivers around the world, our lubricants are tested and proven in the most challenging racing environments. When you choose Sparco Lubricants, you're choosing products designed with a champion's mindset, ensuring that your engine performs at its best, no matter the challenge.

Safety at the Forefront

Safety is a core value shared by both Sparco® and Mapetrol®. Every product in the Sparco Lubricants range is developed with this in mind, offering maximum protection to your engine. Whether it's shielding components from wear and tear or maintaining performance in extreme temperatures, our lubricants are designed to keep your engine safe and reliable. With Sparco Lubricants by Mapetrol®, you can trust that your engine is protected just as rigorously as the drivers who rely on Sparco's safety gear.

Our Commitment

At Mapetrol®, we are dedicated to producing motor oils that are as exceptional as the Sparco® name itself. Our collaboration with Sparco® reflects our shared commitment to quality, performance, and innovation. Together, we are proud to offer Sparco Lubricants, products that not only meet but exceed the expectations of the motorsport community. Experience the excellence of Sparco Lubricants by Mapetrol® and give your engine the performance it deserves.

Sparco x Mapetrol Performance

Mapetrol Sparco Performance WS2+ 5W-50: Fully synthetic engine oil for sports cars, competition, and high-powered engines. Nanosized WS2+ for exceptional engine cleanliness, durability, and wear protection, even under racing conditions. Outstanding low-temperature fluidity is complemented by its ability to sustain high viscosity even in the most extreme engine temperatures.

Specifications:

ACEA A3/B4;
API SN/CF;
MB 229.3;
BMW LONGLIFE-01;
VW 501 01/505 00

5L

Mapetrol Sparco Competition LL IV 0W-20: Fully synthetic engine oil for VW Group vehicles requiring VW 508.00/509.00 specification. It is also suitable for vehicles requiring ACEA C5 specification. Enhances engine efficiency, emission system performance, and fuel economy. Reduces engine deposits and maintains fluidity at low temps.

Specifications:

API SP/RC, SN Plus;
ACEA C5, C6;
VW 508 00/509 00, TL 52577;
ILSAC GF-6A;
PORSCHE C20

Packaging:

1L, 5L

Mapetrol Sparco Competition V 0W-20: Fully synthetic engine oil for Volvo and other OEMs needing this viscosity grade and ACEA A1/B1, C5 performance. Reduces engine deposits, ensures stable cold starts, maintains thermal stability, and improves fuel economy and CO2 reduction.

Specifications:

API SN;
ACEA A1/B1-12, C5-16;
VOLVO VCC RBS0-2AE;
FIAT 9.55535-DSX/DM1

Packaging:

1L, 5L

Mapetrol Sparco Competition A5 V 0W-30: Fully synthetic oil designed for Volvo cars. Provides total engine protection, cleanliness, excellent low-temperature fluidity, and reduces fuel consumption and CO2 emissions.

Specifications:

API SN/CF;
ACEA A5/B5;
VOLVO VCC 95200377;
BMW LONGLIFE-01 FE

Packaging:

1L, 5L

Mapetrol Sparco Competition C2 0W-30: Fully synthetic oil for PSA EURO VI Blue HDi DW10F engines with exhaust aftertreatment and turbocharger. Offers high fuel economy, low CO2 emissions, excellent cold-start fluidity, engine cleanliness, and aftertreatment system protection. Suitable for vehicles with Stop & Start technology.

Specifications:

ACEA C2;
PSA B71 2312-2022;
FIAT 9.55535-DS1/GS1;
IVECO 18-1811 Classe SC1 LV

Packaging:

1L, 5L

Mapetrol Sparco Competition LL 0W-30: Fully synthetic engine oil for diesel and gasoline vehicles, prolonging Exhaust Emission Reduction Systems' life. Ultimate performance and protection for modern VW, Audi, Seat, and Skoda engines.

Specifications:

API SN;
ACEA C2, C3;
VW 504 00/507 00, TL 52545;
PORSCHE C30;
FIAT 9.55535-DS1/GS1/S3;
BMW LONGLIFE-04;
MB 229.31/229.51

Packaging:

1L, 5L

Mapetrol Sparco Competition D 0W-30: Fully synthetic engine oil. Provides total engine protection, cleanliness, excellent low-temperature fluidity, and reduces fuel consumption and CO2 emissions. Compatible with all exhaust gas aftertreatment systems, DPF, TWC, EGR and SCR by using Mid SAPS technology.

Specifications:

API SP, SN Plus;
ACEA C2, C3;
BMW LONGLIFE-12FE;
MB 229.61;
FORD WSS-M2C950-A;
OPEL OV0401547;
PSA B71 2290/2312

Packaging:

1L, 5L

Mapetrol Sparco Competition LL III 5W-30: Fully synthetic engine oil for diesel and gasoline vehicles, prolonging Exhaust Emission Reduction Systems' life. Ultimate performance and protection for modern VW, Audi, Seat, and Skoda engines.

Specifications:

API SN;
ACEA C3;
VW 504 00/507 00, TL 52195;
MB 229.51;
BMW LONGLIFE-04;
PORSCHE C30

Packaging:

1L, 5L

Mapetrol Sparco Competition C4 5W-30: High-performance low SAPS synthetic engine oil with complete DPF protection. Outstanding performance, protection, and durability for Renault Group engines requiring ACEA C4 and RN 720 specifications.

Specifications:

ACEA C4, C3;
RENAULT RN0720;
FIAT 9.55535-S4;
MB 226.51/229.31/229.51

Packaging:

1L, 5L

Mapetrol Sparco Competition C3 5W-30: Fully synthetic engine oil for gasoline and diesel engines, offering long engine life, enhanced lubrication, protection for critical engine parts, and emissions control system protection. Suitable for various major brands.

Specifications:

API SN/CH-4;
ACEA C2, C3;
VW 505 01;
BMW LONGLIFE-04;
MB 226.5/229.31/229.51/229.52;
GM dexos2;

FIAT 9.55535-GH2/9.55535-S2;
CHRYSLER MS-11106

Packaging:

1L, 5L

Mapetrol Sparco Competition MB 5W-40: Fully synthetic engine oil for gasoline and diesel car engines, excluding those with diesel particulate filters (DPF). Offers excellent engine protection, longer oil drain intervals, cleanliness, and low-temperature fluidity.

Specifications:

API SN/CH-4;
ACEA A3/B4;
MB 226.5/229.3/229.5;
JASO MA2;
VW 502 00/505 00;
PORSCHE A40;
RENAULT RN0700/RN0710;
BMW LL-01/LL-9B;
PSA B71 2296;
FIAT 9.55535-H2/Z2;
CHRYSLER MS-10850/10896/12991;
GM LL-A-025/B-025

Packaging:

1L, 5L

Mapetrol Sparco Competition SN 5W-40: Fully synthetic engine oil with carefully selected high-quality additives and base oils. Provides engine protection, excellent low-temperature fluidity, and extended oil drain intervals. Suitable for turbocharged and direct fuel injection gasoline and diesel engines in passenger cars. Not for diesel engines equipped with a diesel particulate filter (DPF).

Specifications:

API SN/CF;
ACEA A3/B3, A3/B4;
MB 229.1;
VW 502 00/505 00

Packaging:

1L, 5L

Mapetrol Sparco Competition SN 10W-40: Semi-synthetic engine oil designed for normally aspirated and supercharged four-stroke petrol and diesel engines in passenger cars and vans. Ensures stable viscosity at high temperatures, good low-temperature fluidity, and long engine life for various vehicle types and ages. Suitable for year-round use.

Specifications:

API SN;
ACEA A3/B4;
MB 229.1/229.3;
VW 501 00/500 00/502 00/505 00;
PSA B71 2294;
RENAULT RN0700/RN0710

Packaging:

1L, 5L

Mapetrol Sparco Competition SN 15W-40: High-quality engine oil for gasoline and diesel passenger car engines, including multi-valve and turbocharged engines. Protects against sludge, soot, piston deposits, and maintains engine cleanliness.

Specifications:

API SN/CH-4;
ACEA A3/B4;
MB 229.1/229.3;
VW 501 00/500 00/502 00/505 00;
PSA B71 2294;
RENAULT RN0700/RN0710

Packaging:

1L, 5L

Mapetrol Sparco Competition Ester 4T 10W-50: Fully synthetic oil for modern 4-stroke engines, formulated from carefully selected additives and ester-based base oils. Boosts engine performance and offers complete protection for all lubricated parts. Ensures good clutch disc friction, reduces lubrication system wear, and provides excellent thermal stability and low-temperature fluidity.

Specifications:

API SN;
JASO MA2

Packaging:

1L, 5L

Mapetrol Sparco Competition Ester 4T 15W-50: Fully synthetic oil for modern 4-stroke engines, formulated from carefully selected additives and ester-based base oils. Boosts engine performance and offers complete protection for all lubricated parts. Ensures good clutch disc friction, reduces lubrication system wear, and provides excellent thermal stability and low-temperature fluidity.

Specifications:

API SN;
JASO MA2

Packaging:

1L, 5L

Mapetrol Sparco Competition Scooter Ester 4T 10W-40: Fully synthetic oil suitable for modern 4-stroke scooters. Formulated from selected additives and ester-based base oils, it boosts engine performance, ensures low volatility to reduce oil consumption, and guarantees engine protection. Ideal for urban and interurban driving conditions, including frequent stop-start scenarios.

Specifications:

API SN;
JASO MA2

Packaging:

1L, 5L

Mapetrol Sparco Competition Ester 4T 10W-40: Fully synthetic oil for modern 4-stroke engines, formulated from carefully selected additives and ester-based base oils. Boosts engine performance and offers complete protection for all lubricated parts. Ensures good clutch disc friction, reduces lubrication system wear, and provides excellent thermal stability and low-temperature fluidity.

Specifications:

API SN;
JASO MA2

Packaging:

1L, 5L

Mapetrol Sparco Competition Ester 2T: Fully synthetic ester lubricant for high-speed, high-performance 2-stroke motorcycle engines. Offers exceptional performance at maximum RPM, ensures optimum engine protection against wear and friction, and promotes engine cleanliness.

Specifications:

API TC;
ISO-L-EGD;
JASO FD

Packaging:

1L, 5L

Mapetrol Sparco Competition Scooter Ester 4T 5W-40: Fully synthetic oil suitable for modern 4-stroke scooters. Formulated from carefully selected additives and ester-based base oils, it increases engine performance and ensures complete protection for lubricated parts. Offers peak performance across a wide temperature range, guarantees smooth operation, and delivers excellent engine protection. Recommended for urban and interurban driving conditions, including constant stop-start scenarios.

Specifications:

API SN;
JASO MA2

Packaging:

1L, 5L

Mapetrol Sparco Competition Scooter Synth 2T: Synthetic oil designed for scooters in daily use, featuring frequent cold starts and high operating temperatures. Carefully selected synthetic base oils and additives provide outstanding anti-wear protection, reduce exhaust emissions, and ensure engine cleanliness. Suitable for pre-mix or oil injection systems.

Specifications:

API TC;
ISO-L-EGC

Packaging:

1L, 5L
