

Technical Data for:

MAPETROL CATALYST CLEANER GASOLINE

Description:

Mapetrol Catalyst Cleaner Gasoline is engineered for vehicles with catalytic converters to combat carbon build-up. It thoroughly cleans the fuel system, including injectors, valves, and pistons, enhancing combustion efficiency, reducing emissions, and protecting the catalytic converter from phosphorus poisoning. It is suitable for all gasoline engines (including Gasoline Direct Injection) that are equipped with a catalytic converter.

Benefits:

- Diminishes the release of harmful exhaust fumes
- Effectively purges and diminishes the accumulation of deposits in engines featuring catalytic converters
- Enhances the octane rating of the fuel
- Averts fouling of spark plugs
- Optimizes combustion and boosts overall engine efficiency
- Enhances the efficiency of fuel consumption
- Shields against operational glitches of the catalytic converter
- Reinstates power and performance

Instructions:

- Treats 40-60 liters of gasoline per bottle
- Add before refueling
- Use one bottle every 5000 km

Typical characteristics:

Colour	CLEAR
Smell	CHARACTERISTIC
Flash point [°C]	> 61
Density [g/cm ³]	0.804

The values provided are for informational purposes only. The exact values for a specific batch are available on the Certificate of Analysis (CoA).

Storage:

Please store in a well-ventilated, dry, and cool area, away from direct sunlight and out of reach of children. Additional information can be found in the safety data sheet.
