

Technical Data for:

MAPETROL VALVE CLEANER GASOLINE

Description:

Mapetrol Valve Cleaner Gasoline is meticulously formulated to effectively purify valves, valve seats, the combustion chamber, and dirty carburetors within port fuel injection engines or engines equipped with a carburetor. It is suitable for all gasoline engines with port fuel injection or carburetor operating on either leaded or unleaded gasoline. No adverse effects on catalytic converters or turbochargers.

Benefits:

- Purges injectors, valves, the combustion chamber and dirty carburetors
- Prevents valve sticking
- Reduces emission of hazardous exhaust gases
- Renews power and performance
- Guards against corrosion
- Improves combustion and compression
- Reduces petrol consumption
- Eliminates rough idling and engine hesitation

Instructions:

- Each bottle treats 40-60 liters of gasoline
- Add the bottle before refueling
- Use one bottle every 2000 km
- For sportive use, add one bottle with each tank refill

Typical characteristics:

Colour	CLEAR
Smell	CHARACTERISTIC
Flash point [°C]	> 61
Density [g/cm ³]	0.794

The values provided are for informational purposes only. The exact values for a specific batch are available on the Certificate of Analysis (CoA).

Storage:

Please store in a well-ventilated, dry, and cool area, away from direct sunlight and out of reach of children. Additional information can be found in the safety data sheet.
