

**Technical Data for:****MAPETROL BRAKE CLEANER 360°****Description:**

Mapetrol Brake Cleaner 360° is a high-performance solvent cleaner designed for maintenance, repair, and assembly tasks. Featuring a 360° spray nozzle, it allows for effortless application from any angle, making it ideal for hard-to-reach areas. Its powerful formula dissolves and eliminates oil, grease, resin, tar, and silicone from various automotive and mechanical components, ensuring residue-free and fast-drying cleaning.

Perfect for brake systems, clutch parts, gearbox components, cables, and tools, it also traps and rinses away abrasive dust, preventing contamination and wear. The high-pressure spray ensures deep cleaning, even in tight spaces, making it a must-have for professional mechanics and workshops.

**Benefits:**

- 360° spray nozzle for easy application from any angle
- Removes oil, grease, resin, tar, and silicone with ease
- High-pressure spray for deep cleaning, even in tight spots
- Fast-drying, residue-free formula for optimal performance
- Captures and rinses away abrasive dust
- Reduces contamination risks in sensitive brake and clutch systems

**Instructions:**

- Test compatibility on a small, hidden area before full application.
- Shake well before use.
- Spray an even coat from a distance of approximately 20 cm.
- Allow to sit briefly for optimal cleaning action.
- For stubborn residues, reapply as needed.
- Let the area dry completely before reassembly or further work.
- This professional-grade brake cleaner ensures maximum cleaning efficiency, extending component lifespan and maintaining optimal performance in high-wear automotive environments.

**Storage:**

Please store in a well-ventilated, dry, and cool area, away from direct sunlight and out of reach of children. Additional information can be found in the safety data sheet.
